# Brain Throbs

Spring 1975

Dear Diary,

The seniors of the class of 1960 held their reunion at the "Interplanetary Space Station," half way between Earth and Mars. This was the first experience with an adventure of this sort. I had talks with all those present, and will tell you about it. It proved interesting, to say the very least.

Scott Refsdal, a prominent mortician, has discovered a new way of preserving bodies .....by using  $C_2H_5OH$ .

Donna Stevens has recently finished this year's best seller, "How to Deal with Your Problems.. ....and His," and has had it published by the Children's Theater Company. Jerry Rankila, the famous Jet Airlines tycoon, is also the president of the company.

Frank Parzyck is lobbying in Washington D.C. in hopes of getting a super highway built to the moon, so Kaisers can invade it. Carol Enzmann is also in Congress trying to get cows exported to the moon, to increase the output of cheese.

Tom Gordon, America's oldest 4-H exchange student, is now in Gluboskokjia. This island was discovered in the Indian Ocean by Rodney Sanko the day after graduation. He went; he saw; he conquered.

Sam Olson is a missionary in Ethiopia, where he is conforming to custom by having over a dozen wives.

Peggy McFarland is in North Africa, where she holds a very high government position. She is the Secretary of Foreign Legion Love Affairs. Incidentally, she has run into her former classmate, Dewey Johnson, who is General in charge of K.P.

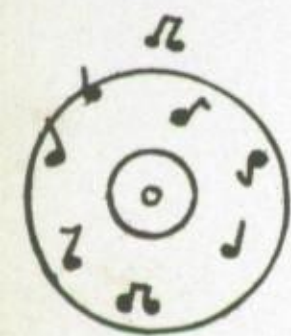

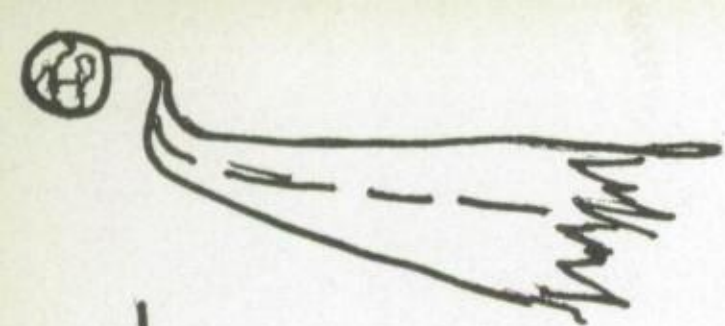

In the line of farming, Lloyd Holter has developed a vitamin-loaded and oven sized pea. Lloyd likes them because now they don't fall off his knife.

From our new interplanetary space TV station, we hear the bubbling voice of Carol Marsyla, whose latest recording is "I Got Him." We can also watch "Dick's Picks," whose M.C. is Dick Obidowski. He chooses the classic of the week....in beauty contests. Ron Flack is known to all children as the star of "Perfect Draw," which was recently chosen as the number one western in outer space.

Andy Eldien is the most famous jet pilot in space, as he has broken the world's record that was recently set by Beatrice Nylund, the young lady that dedicated herself to the whims and pleasures of humanity. She made this record while searching the universe for those who have similar desires. They have joined forces and plan to enter the other existing galaxies to find whether there are any people riding the shooting stars.

Ted Beatty has been appointed the Secretary of Math by president, Zona LeMoine. He is busy on the other planets trying to count the women. He seems to enjoy his work!?!

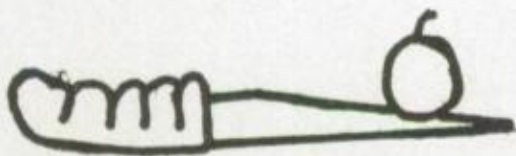

Sharon Alango is in Antarctica, where she is head of the armed forces. She is envied by hundreds of girls!

$$V + \sqrt{1/r^3} =$$

$$GH_0^2 + V^{\frac{3}{4}}$$

$$\frac{3}{4}V^{\frac{3}{4}}$$

Kathy Olson is giving lessons to aerial walkers and trapeze artists in circuses all over the world.

Richard Hanson is the head Meat Inspector in India. Since cows are sacred, his business is limited.

Art Kontio and Judy Harkonen are archeologists, and think they have found evidence that the Finns discovered America.

Neil Nolde is the owner of the new Eiffle Tower Shoppe, which is Paris' newest and largest lingerie store. Douglas Johnson is also in Paris, where he has formed a new company, the Doug-LASS Muscle Building Corporation.

John Refsdal has become head coach of the Rugged Ruffers basketball team. This is the first team of this sort to capture the top title in the world of sports. (It's a girls' team.)

Cheryl Fadum has been living with the pigmies, where she is respected as the tall white queen.

Arlene Rankila and Sherry Aune are busy keeping up the morale of the men in space, and are the first rocket ship stewardesses.

Merry Lee has engaged in a new corporation, the Tasty Merry Freezes. Vivian Baker, world famous attorney, is her lawyer in court. It seems that her competitors are trying to have her standards of freezes lowered, as their products are very inferior.

Gerald Finnilla, the world renowned musician, is now residing in Vienna. He played his latest masterpiece, the "Viennese Polka."

Alden Bergman has recently been elected chief game warden of Minnesota. Leonard DeRusha is his assistant, and their job is very complex, as many people are hunting "dears."

Terry Germ is the head of a corporation of grocery stores on Mars. Gary Boutto is his chief carry-out boy, and enjoys it. The reason?? Only movie stars are allowed in the store.

Mike Simonson performs with the world famous Rockettes, but they only do their jigs during the half of each C.H.S. basketball game.

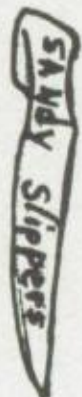

Mary Jorgenson is currently entertaining tribes in Africa under the "Getting Acquainted Program." She was surprised to see that Ann Fortun is the new head of the Mau Maus.

Sandra Ronning is one of the wealthier members of the class. She has invested most of her money in Sandy's Snazzy Slippers.

The party ended at 5 a.m., with our famous trumpet player, Rowen Pajari, playing "Reville." After that, everyone decided to leave.

Well, Dear Diary, that was the end of the party. Afterwards the men in the white coats escorted them back to their rooms.  
What a night!!!!
